

View business rules before a dynamic share runs

Fluorine+

Before a [dynamic share](#) runs, you may want to view any business rules that might have an impact on the dynamic share actions that occur (inserts, updates, and/or deletes). Oftentimes, the business rules that run before a dynamic share is executed may have an impact on the order of dynamic share execution.

Prerequisites

⚠ First, you will need to follow the steps to [get started with Replicator](#) and create a dynamic share.

Procedure

To view the business rules that will run before dynamic sharing records, follow these steps:

1

Log into your sharing ServiceNow instance and navigate to **Perspectium > Replicator > Dynamic Share**.

2

Click the name of the dynamic share you want to view business rules for.

3

At the bottom of the dynamic share form under **Related Links**, click **View Business Rules Before This Share**. You will automatically be redirected to a list of **Business Rules** that will run before dynamic share actions occur.
