Multi Team Administration

The Multi Team Administration creates teams that can be referenced in the team field on dynamic share, bulk share, scheduled bulk shares, shared queues, subscribed queues, and subscribe.

Procedure

To create teams, follow these steps:

Next steps

Once a dynamic share, bulk share, scheduled bulk shares, shared queues, subscribed queues, and subscribed activity is referenced with a team field, all of the activity associated with those references will be reflected in this view; i.e. if you were to create a new bulk share referencing the "Perspectium" team in the team field.
