

# Toggle alerts/events for a trend group chart

Fluorine+

## Procedure

---

To toggle alerts/events for a trend group, follow these steps:

1. [Log into Observer](#) and click  > **Problems** to navigate to the [Problems](#) page.
2. Select the trend group you want to display from the dropdown at the top of the page next to "Raw Data".
3. Next to the trend group dropdown, check the boxes for the [alert/event categories](#) that you want to display over the trend group chart. Then, click anywhere else on the page to load the chart with your selected alert(s)/event(s), which will appear as **color-coded flags** directly above the chart's x-axis.

## Next steps

---

[Specify the date range for a trend group chart](#)
