

ServiceNow compatibility

Gold

Perspectium applications delivered through [update sets](#) are continuously updated and rigorously tested to ensure support for the latest versions of the ServiceNow platform.

ServiceNow Version Compatibility

Perspectium applications are supported in the following ServiceNow versions:

- Tokyo (verified as of November 14, 2022)
- San Diego
- Rome
- Quebec
- Paris
- Orlando
- New York
- Madrid
- London
- Kingston
- Jakarta (i NOTE: If upgrading to Jakarta from Helsinki, see [preparing for your Jakarta upgrade](#))
- Helsinki
- Geneva
- Fuji

For more information about the latest ServiceNow versions and the features supported for those versions, see [ServiceNow versions](#).

i NOTE: If upgrading your ServiceNow instance with a Perspectium app installed, be sure to run **Perspectium > Control and Configuration > Stop All Jobs** before your upgrade and then **Perspectium > Control and Configuration > Start All Jobs** once your upgrade is complete. For more information, see [Start/Stop All Jobs](#).
