

Remove a trend group chart

Fluorine+

You can remove any trend group chart from your Observer Overview page. Removing a trend group chart will not delete the chart permanently but will only remove it from the Overview landing page. To delete custom trend groups, see [delete a custom trend group](#).

Procedure

To remove a trend group chart, follow these steps:

1. [Log into Observer](#) to access the [Overview](#) page.
2. Click the **x** within the trend group chart you want to remove.
