

# Using the Observer Problems page

Gold

The Observer Problems page displays rich, customizable views of your existing trend group charts. On the Problems page, you can also [create custom trend group charts](#) by aggregating various types of metrics data from your ServiceNow instance.

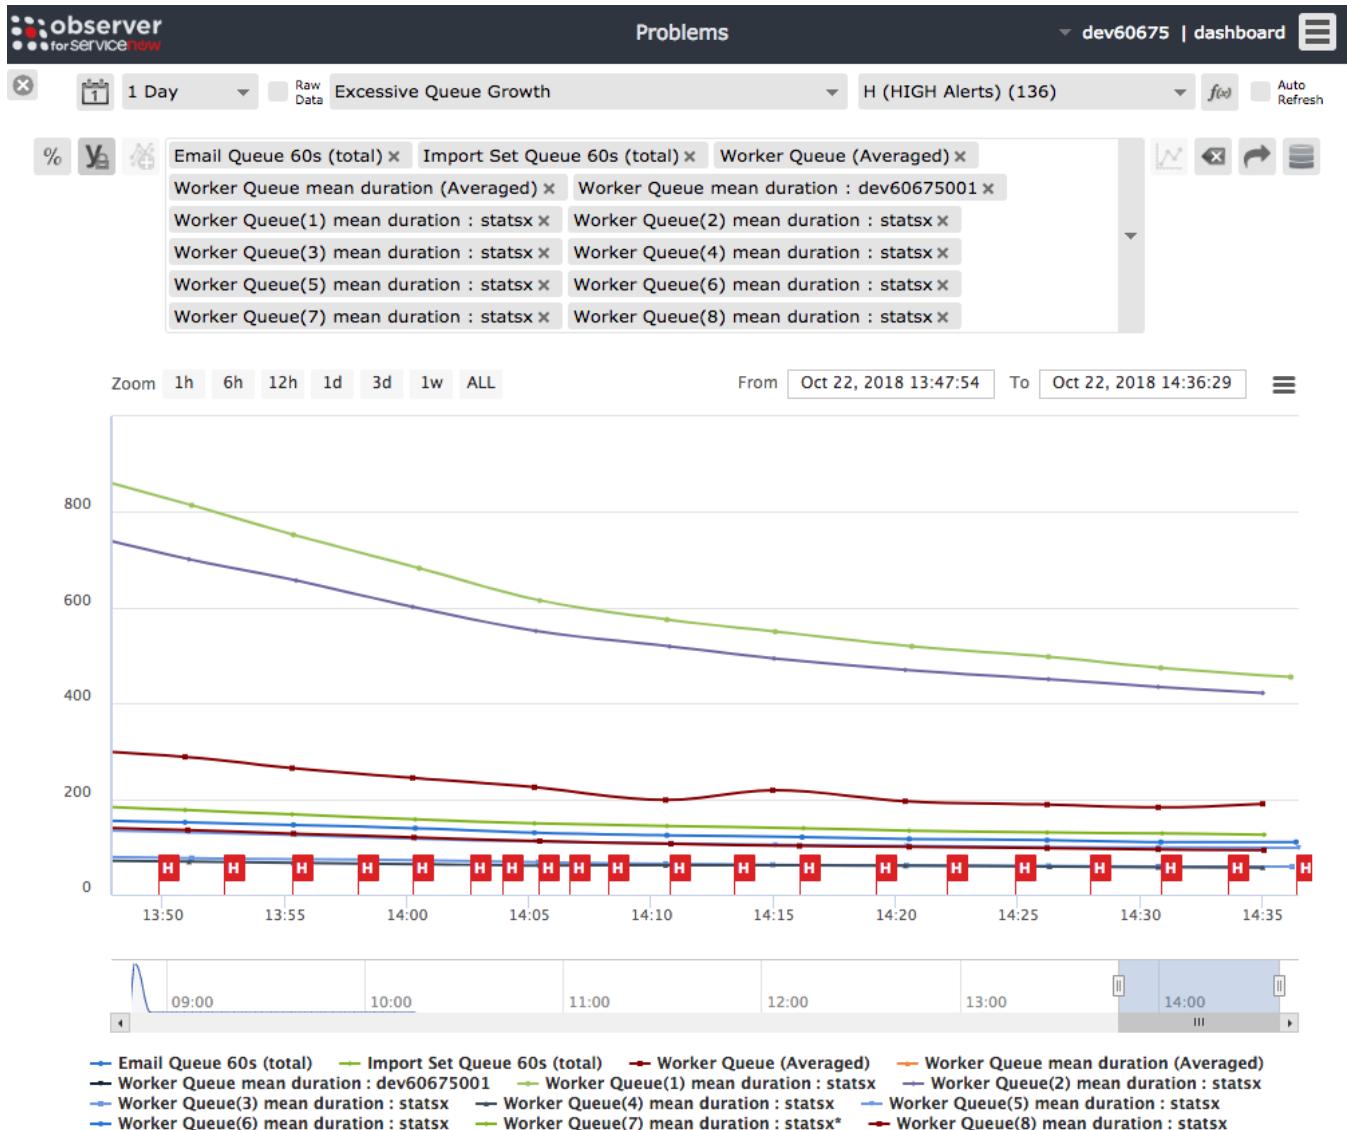

-  The default trend groups included with Observer **cannot** be modified. You can [create a custom trend group](#) if you want to view your own set of metrics.

## Display raw data for a trend group chart

To display the raw data points on a trend group chart, check the box next to **Raw Data** at the top left-hand corner of the page.

## Auto refresh trend group chart data

To ensure that data is refreshed in real time while you are on the Problems page, check the box next to **Auto Refresh** at the top right-hand corner of the page.

## Using the Observer Problems page

- [Collapse the y-axis for a trend group chart](#)
- [Toggle alerts/events for a trend group chart](#)
- [Specify a date range for a trend group chart](#)
- [Change the zoom interval for a trend group chart](#)
- [Display trend group data as a percent of the y-axis](#)
- [Create a custom trend group chart](#)
