

ServiceBond for Cherwell

ServiceBond for Cherwell allows for a bidirectional integration to sync Cherwell records with other Perspectium-supported ITSM applications via Perspectium's [ServiceBond integration framework](#).

The instructions and information provided are for bonding Cherwell with [ServiceNow](#). If you are trying to bond Cherwell with another ITSM app, contact [Perspectium Support](#) for a guided setup.

Get started with ServiceBond for Cherwell

Once you have completed the initial steps to set Cherwell up for a ServiceBond integration, here's how to bond Cherwell with ServiceNow:

1. [Create a ServiceNow dynamic share for Cherwell](#)
2. [Create a ServiceNow subscribed queue for Cherwell](#)
3. [Edit ServiceNow outbound table map fields for Cherwell](#)
4. [Add and edit ServiceNow transform map scripts for Cherwell](#)
