Bond Ivanti with another app

After completing the initial steps to set up Ivanti Service Manager instance for a ServiceBond integration, you will need to bond Ivanti Service Manager with another app to finish configuring your integration.

Bond Ivanti with ServiceNow

Start syncing your Ivanti Service Manager incidents, change, problems or tasks with ServiceNow.

Bond Ivanti with ServiceNow Users

Start syncing your Ivanti Service Manager users with ServiceNow user.

Trying to bond Ivanti with another app?

Contact Perspectium Support for a guided setup.
