

# Get Started With DataSync Free

**DataSync Free** shares your ServiceNow instance's data to a Cloud Database (MariaDB) supported by Perspectium. To get started, you will need to install and register the DataSync Free application. Feel free to explore the instructions linked below, or find a downloadable user guide [here](#).

## Procedure

To set up the DataSync Free configuration, follow these steps:

---

1

**DataSync Free registration**

---

2

**Connect to a database**

---
