

Turn off receipts for a share

Fluorine

By default, receipts are created in the **Receipts** module (**Perspectium > Replicator > Receipts**). However, if you don't want to generate receipts for a [dynamic share](#) or [bulk share](#), you can leverage the **Disable receipts** feature. Currently, receipts can only be turned off per dynamic/bulk share.

Prerequisites

⚠ First, you will need to follow the steps to [get started with Replicator](#).

Procedure

To turn off receipts, follow these steps:

1

Log into your sharing ServiceNow instance and navigate to **Perspectium > Replicator > Dynamic Share** or **Perspectium > Replicator > Bulk Share**.

2

Click into the dynamic share or bulk share that you want to turn off receipts for.

3

Scroll down to and click the **Additional Settings** tab. Then, on the right-hand side of the form, check the **Disable receipts** box to stop generating receipts for your share.

4

In the bottom left-hand corner of the form, click **Update** to save your changes.
