

ServiceBond for Freshdesk

Fluorine

Freshdesk is a customer-facing service desk platform that you can integrate with your ServiceNow instance via the [ServiceBond integration](#) framework. Multidirectional sharing can be configured so that the data in your Freshdesk instance is sent back and forth to Perspectium-supported apps via the Perspectium Mesh and without the need for a traditional swivel-chair integration approach.

Get started with ServiceBond for Freshdesk

Learn how to sync your Freshdesk ITSM data with other Perspectium-supported apps via a ServiceBond integration.
