

# Add ACL rules to Perspectium UI pages

Fluorine

You can limit access to Perspectium UI pages (in the **sys\_ui\_page** table) by committing an **access control list (ACL) update set** on any ServiceNow instance where [Replicator](#) or [Observer](#) is installed. To learn more, see [access control list rules](#).

After getting started with Replicator, you can request an ACL update set by [contacting Perspectium Support](#).
